

RYSLIM STRONG

Green coffee with medicinal fungi

Caffeinated nutrition supplements with coffee extract

The following vital substances will help you to achieve your desired weight:

- Green coffee:** rich in chlorogenic acid which slows the uptake of sugar into the bloodstream. Sudden hunger pangs can be avoided thanks to this modified progression of the blood glucose curve.
- Ling zhi:** The king of the medicinal mushrooms also has a positive influence on blood sugar regulation, among other things.
- Maitake:** This medicinal mushroom has a positive effect on the body's ability to metabolise fat.
- Chitosan:** is an intensive, plant-based "binding agent" which absorbs both fats and heavy metals to remove them from the body
- Amino acids:** to promote muscle growth

Weight loss is guaranteed thanks to the comprehensive RySlim® concept. RySlim offers a money-back guarantee. Find out more at www.ryslim.com.

Note

The electronic food diary is also available to all RySlim customers. This allows you to track your eating habits and manage them accordingly.

Application

Tear open the sachet along the perforation, empty the

contents of one measuring cup (7g) into a mug and add approx. 150ml of hot (but not boiling) water, stir thoroughly and enjoy.

Ingredients

Arabica coffee extract (39%), soya protein isolate, whole milk powder, Sukrin, cocoa, green coffee extract (5%), ling zhi extract (3%), maitake extract (3%), malt coffee, fig coffee, chitosan
